Dear Sir:

Multiple sequence listings were submitted in the prosecution of the above-identified application due to the initial sequence listing's failure to include all sequences disclosed in the above-noted application. The complete Sequence Listing was filed in computer-readable format and paper format on November 07, 2002, with (38) sequences. A copy of the date-stamped post card sent by the PTO upon receipt of the computer-readable and paper formats of the Sequence Listing filed November 07, 2002 is included as Appendix A.

In response to Examiner Humphrey's phone call that the computer-readable format of the Sequence Listing was not found in the Patent Office files, Applicants are resubmitting a copy of the computer-readable format of the Sequence Listing as well as a copy of the paper format of the Sequence Listing submitted on November 07, 2002.

In accordance with 37 CFR § 1.821(f), Applicants hereby state that the paper and computer readable copies of the Sequence Listing submitted herewith in connection with the above-identified

patent application are the same. The Sequence Listing submitted herewith does not include new matter or matter which goes beyond the application as originally filed.

In accordance with 37 CFR § 1.825(d), Applicants hereby state that the content of the substitute copy of the computer readable form of the Sequence Listing is identical to that originally filed.

Respectfully submitted,
